## Beauty update: lip service

15 Mar 2010 15:27 PM | Posted by [Editor](#)

Coco Chanel once said that 'lips are the mouthpiece of the heart', and if you love lipstick anywhere near as much as the Mademoiselle herself, you won't be able to resist wearing your heart on your lips with Chanel's new **Rouge Coco** line-up.

The range is specially formulated to smooth onto your smile with the pigment intensity of a lipstick, but to melt into your pout like a balm so you can achieve long-lasting colour and ultra-hydration.

Leaving out no fine details, the lipsticks are subtly fragranced with a hint of rose, raspberry and vanilla, and (this is my best part), also conceal a secret signature within the lid of each lipstick. How's that for a little touch of luxury?

If a premium price tag isn't up your alley, you can still indulge with the new **Nougat London Luscious Lip Collection**. Comprising a Gentle Lip Polish, a Luscious Lip Balm, and an Intensive Lip Treatment, this super-cute trio is the perfect companion for any pout in need of some TLC. Available in Sweet Rose

or Sugared Fig (my fave flavour), they've fast become my desktop staple.

Not one to ever overlook the lip stain category, I also heart **Elizabeth Arden Eight Hour Cream Sheer Tint Lip Protectant Stick** and **Bloom Lip Tint** for a sheer touch of colour.
